

Who is Jesus/Isha?

As he says, that I am the soul. I am the son of god. So is everybody.
Everybody is the soul. Everybody is son of god.
Nobody is son of devil.

Everybody is soul. Everybody is son of god.

Realise that you're the son of god.
It can become powerful and then your healing power increases.
Then you can give boon and curse.
your speech becomes powerful. Your healing becomes powerful.

So this is just yoga (union with reality).
We sit peacefully and our other energies start to arise,
but if you run nothing can help

It's like a seed. If you still and peaceful
lay it down under the earth then under the yogic process it sprouts
and becomes big, blossoms, fragrance comes and fruit comes. Soon birds comes on
it.
So disciples are like birds. They come when the tree is fruitful.
So when the yogi (spiritual person) is full of siddhis (powers), all the
disciples comes.
